

Subscribing to Quest International Users Group and Affiliated User Groups on the Quest Web site

As a Quest subscriber member (no cost to you) you will have access to Quest special interest, product, industry or regional user groups' sites and other online tools (**excluding** members-only tools); able to submit, view and discuss enhancement requests via Quest's enhancement request system; access to product advocacy resources, Quest eNews and other electronic updates; and have access to free weekly vendor-presented webinars.

Please follow these easy steps to subscribe to Quest International Users Group and our affiliated user groups and share this information with your colleagues.

1. Go to the Quest Web site - www.questdirect.org
2. Log into the site. (If you are logged in, you will see "Welcome" and your name in the top bar. If you have forgotten your password [click here](#).)
3. If you do not have a Quest ID and password, go to [Become a Member / Become a Subscriber](#) (member levels and benefits can be found here). Click "Join Now" and choose to become a free subscriber or become a paid Quest member.
4. New members/subscribers to Quest logging into the system for the first time are required to complete a profile question form prior to being able to navigate within the Quest Web site.
5. After logging in, click on the About User Groups tab at the top of the page. Here you can navigate to either our SIGs-IUGs-PUGs listing or our Geographic User Groups listing. By clicking on the user group you are interested in, you will be taken to that group's home page. Once there, you can bookmark this page to go directly there in the future.
6. On the user group home page, there is a button labeled Subscribe to [UG Name]. Click on this button. This will add your name to that group's subscriber list.

If you should have any questions or need additional assistance with joining Quest International Users Group, either as a paid member or subscriber, please do not hesitate to contact us at uginfo@questdirect.org.
